INPUT

Build a function that returns an array of integers from n to 1 where n>0.

FUNCTION

OUTPUT

n=5 >> [5,4,3,2,1]

1. //arrow function const reverseSeq with n parameter

2. //variable named arr =assignment operator to an array;

3. //for loop let i = n; condition: i > 0; i minusminus

4. //push method with property arr and parameter i

5. //return arr;
